ACHIEVEMENT

Bachelor Diplome July 2020
Université libre de Bruxelles

ECTS Grade: A with Distinction

Exposition / Presentation June 2020
Faculté d'architecture ULB

ArchiExpo

Project Exposition May 2019
Faculté d'architecture ULB

LANGUAGES

German Native Tongue

French Very Fluent

English Very Fluent

TECHNICAL SKILLS

Office Suite

ArchiCAD

AutoCAD

SketchUp

Blender

Sverchok

QCAD

FreeCAD

Python

Inkscape

GIMP

OBJECTIVE

During my architecture studies I was able to gain a lot of passionate experience and knowledge, but now that it is coming to an end, I am looking forward to opportunities to get to know the reality of architectural work and to use my acquired skills in a beneficial way. My studies consisted largely of creative group work, through which I discovered my passion for coordination, communication, and collaboration.

What appeals to me about architecture is creativity and organized design. My interests are increasingly moving towards parametric design and machine learning aided conceptual design.

WORK EXPERIENCE

FabLab, Brussels, BEL (January 2020 - June 2020)
Student

- Worked as a team member of a multidisciplinary workshop.
- Learned to work with 3d printers, lasercut and cnc milling machines.
- Extended my knowledge of various open-source software through several training courses.
- Developed independent multi-phase working and communication skills.

Key Achievement: Designed and materialized new prototypes of an automatic shading system.

Les Fumades, Carcassonne, FR (April 2017 - June 2017)
Intern, Construction supervisor

- Worked as planner and woodworker in a carpentry.
- Learned the complete process from the living tree to the finished wooden cabin.
- Experienced the physical and mental work of timber construction.

Key Achievement: Designed and built an elevated wooden cottage.

Foyer de Vie, Ruzière, FR (March 2016 - September 2016)
Intern, Educator

- Worked passionately with people with mental and physical disabilities
- Gardening and organizational work done as a team.
- Learned to work with different people and how to coordinate small groups.

EDUCATION

Université libre de Bruxelles, Bruxelles, BEL (September 2020 - Present)
Master Architecture

Université libre de Bruxelles, Bruxelles, BEL (September 2017 - September 2020)
Bachelor Architecture

ECTS grade : A

Beethoven-Gymnasium, Berlin, DE (July 2009 - July 2015)
Abitur General

2.1 German GPA

SKILLS

Creative Expertise Advanced	Drawing Advanced
Organization Advanced	Computer-aided Design Intermediate
Coordination Intermediate	Problem Solving Advanced

PROJECTS

Responsive Facades
https://sinasta.github.io/responsive_facade.html

Project realized within the digital fabrication studio. By means of an experimental and analytical approach, the functionality of automated facade systems is evaluated, followed by a simulation of the energy balance and light irradiation.

Centrale Weerkplaatsen renovation [Concept]
https://sinasta.github.io/cohabitat_renovation.html

Renovation project as part of my architecture studies. The focus of this work is on a non-invasive renovation to transform a classical apartment block into a cohabitation and by that, to enable a community life.
