ACHIEVEMENT

Bachelor Diplome   July 2020
Université libre de Bruxelles

ECTS Grade: A with Distinction

Exposition / Presentation   June 2020
Faculté d'architecture ULB

ArchiExpo

Project Exposition   May 2019
Faculté d'architecture ULB

LANGUAGES

German   **French**
Native Tongue   Very Fluent

English
Very Fluent

TECHNICAL SKILLS

QCAD

Office Suite

ArchiCAD

FreeCAD

SketchUp

AutoCAD

Blender

Python

Inkscape

Archicad

Sverchok

OBJECTIVE

I am looking for a possibility to get to know the reality of architectural work and to apply my acquired skills in an advantageous way. My studies consisted to a large extent of group work through which I discovered my passion for coordination, communication and collaboration.

WORK EXPERIENCE

FabLab, Brussels, BEL   (January 2020 - June 2020)
Student

- Worked as a team member of a multidisciplinary workshop.
- Learned to work with 3d printers, lasercut and cnc milling machines.
- Extended my knowledge of various open-source software through several training courses.
- Developed independent multi-phase working and communication skills.

Key Achievement: Designed and materialized new prototypes of an automatic shading system.

Les Fumades, Carcassonne, FR   (April 2017 - June 2017)
Intern, Construction supervisor

- Worked as planner and woodworker in a carpentry.
- Learned the complete process from the living tree to the finished wooden cabin.
- Experienced the physical and mental work of timber construction.
  Key Achievement: Designed and built an elevated wooden cottage.

Foyer de Vie, Ruzière, FR   (March 2016 - September 2016)
Intern, Educator

- Worked passionately with people with mental and physical disabilities
- Gardening and organizational work done as a team.
- Learned to work with different people and how to coordinate small groups.

EDUCATION

Université libre de Bruxelles, Bruxelles, BEL   (September 2020 - Present)
Master Architecture

Université libre de Bruxelles, Bruxelles, BEL   (September 2017 - September 2020)
Bachelor Architecture   ECTS grade : A

Beethoven-Gymnasium, Berlin, DE   (July 2009 - July 2015)
Abitur General   2.1 German GPA

SKILLS

Creative Expertise   **Drawing**
Advanced   Advanced

Organization   **Computer-aided Design**
Advanced   Intermediate

Coordination/ Problem Solving   **Problem Solving**
Intermediate   Advanced

PROJECTS

Responsive Facades
https://sinasta.github.io/responsive_facade.html

Project realized within the digital fabrication studio. By means of an experimental and analytical approach, the functionality of automated facade systems is evaluated, followed by a simulation of the energy balance and light irradiation.

Centrale Weerkplaatsen renovation [Concept]
https://sinasta.github.io/cohabitat_renovation.html

Renovation project as part of my architecture studies. The focus of this work is on a non-invasive renovation to transform a classical apartment block into a cohabitation and by that, to enable a community life.
